

# **DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING**

## **“Experiment 1.3”**

**Student Name: SUMIT KUMAR**

**UID: 20BCS8226**

**Branch: CSE**

**Section/Group: DM-720 A**

**Semester: 6th**

**Date of Performance: 06-03-23**

**Subject Name: Data Mining Lab**

**Subject Code: 20CSP-376**

### **Aim:**

To demonstrate association rule mining using Apriory algorithm.

### **Objective:**

- The objective is to draw relative item frequency plot.
- To understand implementation of libraries like arules, arulesViz, RColorBrewer.
- To know the functions like apriori and inspect.

### **Code:**

```
#to display all available datasets  
library(help="datasets")
```

```
#select any dataset  
iris
```

# DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

```
#to show all attributes of the dataset  
names(iris)
```

```
#to display number of rows and columns  
dim(iris)
```

```
#to calculate the mean  
mean = mean(AirPassengers)  
print(mean)
```

```
#to calculate median  
median=median(AirPassengers)  
print(median)
```

```
#to calculate mode  
mode= function(iris){  
  return(names(sort(-table(iris$Sepal.Length)))[1])  
}  
mode(iris)
```

**Output:**

# DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
